intelligent Digital Cash (iDC)TM

The future of retail payments

A new crypto-currency backed by real currencies:

- Interoperable
- Based on a distributed network
- A real peer-to-peer
- Compliant with PSD, EMD and AML directives
- Allows instant settlement (clearing and settlement)
- Has virtually no cost
- Value added service can be developed

eWallets integrated with mobile payment mechanisms and customisable tools

Offer state of the art mPOS to merchants

Conclusion

- ⦿ iDC – the future of retail payments
 - ⦿ Universal instant peer-to-peer settlement
- ⦿ Growth through European expansion: 500m vs 60m inhabitants
 - ⦿ Delivering increased balance sheet liquidity
 - ⦿ Offering unique cash management services to your customers
 - ⦿ Implementing an interoperable system with discrete modules
- ⦿ Full distribution network without assuming the cost
 - ⦿ Combining a dense network of ipagoo agents with highly profitable branches
