

## ***MAURO PROSERPIO***

Is a Distinguished Engineer in IBM Sales & Distribution, Finance Sector.

Over his 29 years of IT experience at IBM, Mauro has operated in a variety of contexts and industries as IT Subject Matter Expert.

Through his successive job positions as IT Specialist, IT Architect and IT Consultant Mauro has built his professional career creating new business models and innovative ways of working to connect business and IT.

There, he had the opportunity of working in an international, challenging and stimulating environment for complex IT Transformation & System Integration projects.

Since 2006 he has been moved to Banking Sector with the responsibility to design distinctive value solutions for IBM clients, combining the leading edge system technologies and business transformation services.

In 2008, Mauro has been appointed as IBM Distinguished Engineer and assigned to one of larger European bank as Technical Advisor where he drives and applies IBM corporate strategy and vision, developing IT business solutions.

Mauro is pleased to be part of "Banche e Sicurezza 2010" on next June 10-11, 2010 leading the IBM Vision for the Integrated Fraud Management, on banking market.
