

Giorgio Aprile

Giorgio Aprile is head of operational risk management in Monte dei Paschi di Siena banking group, the third banking group in Italy and the second certified for an AMA model. He started his activity in operational risk in 2003, and from 2005 he has the duty of implementing the Advanced Measuring Approach (AMA) in the MPS Group. The AMA model is full running from January 2007.

He was born in 1971 and graduated in nuclear engineering in 1996 with a dissertation thesis on safety analysis of Ukrainian nuclear power plants. He worked as risk analyst in the Oil & Gas for 5 years, on different research projects, mainly focused on the "smart" use of field data to reduce operation risks in offshore plants and on the prevention of environmental disasters. At the end of 2001 he joined the MPS banking group, and focused on the development of advanced tools for risk management and strategic marketing for the bank. From June 2005 he is head of operational risk for the MPS Group.
