

## Short C.V.

Marc BAYLE is the T2S Programme Manager (Directorate General Payment Systems and Market Infrastructure) of the ECB.

He is managing T2S programme, and used to manage dossiers related to the promotion of market integration and definition of the Eurosystem operational framework - in particular focusing on payment systems and market infrastructure aspects. He also participated in the ECB oversight on clearing and settlement activities. He has made some publications on the integration process of market infrastructure and related issues such as euro repo market. He is active Member/Chairman of European and International Working Groups in this field, including relations with the industry.

Before joining the ECB he has worked for 10 years at SICOVAM S.A. (now Euroclear France) in particular as advisor to senior management.

He has graduated specialising in Audit and Post Market Infrastructure with a Master in Finance of CERAM.
