The Firm's success is based on the combination of our international outlook, our deep knowledge of the Italian business and legal landscape and the market-leading reputation of our lawyers. We have over seventy years' experience of helping our clients to success, from the post Second World War economic recovery to the recent financial market reforms.

As a result, our client base is exceptionally deep and diverse and includes all major Italian and foreign industrial, banking, insurance, and financial groups. We also advise Italian national and local authorities, foreign governments, industry bodies, centralised securities management companies and international organisations. All our clients trust us to provide the best advice to help them achieve their goals and gain a competitive advantage.

In addition to advising on complex and market-leading transactions in the corporate, banking, finance and capital markets areas, we provide expert legal advice in all areas of Italian law relevant to our clients' activities, including tax, administrative, employment, competition, public utilities, intellectual property, financial markets regulation and trusts. Chiomenti also has recognised expertise in civil litigation and national and international arbitration.
